1. Assignment Title: Styling a Personal Portfolio with CSS3
2. Objective:
 - a. To design and develop a simple responsive website using the Bootstrap framework. The focus is on leveraging Bootstrap components and grid system to ensure a responsive layout and a visually appealing design.
3. Assignment Details:

Assignment Structure:

1. **Project Setup**
 - Organize files with a folder structure (`/css`, `/images`).
2. **Website Structure:**
 - Create the following sections using Bootstrap components:
 - **Header:** A responsive navigation bar with links to *Home*, *About*, *Services*, and *Contact*. Add a brand logo or text.
 - **Hero Section:** A full-width section with a background image and a centered heading and subheading.
 - **About Me:** Use a **Bootstrap grid** to create two columns. One column for a short description about the website. Another column for an image.
 - **Projects:** Showcase 2-3 projects with titles, short descriptions, and placeholder images.
 - **Contact Form:** A simple contact form with fields for *Name*, *Email*, *Message*, and a submit button.
3. **Responsive Design:**
 - Use Bootstrap's **grid system** to create a responsive layout that adjusts for:
 - Mobile (up to 768px)
 - Tablet (769px - 1024px)
 - Desktop (above 1024px)
 - Ensure all Bootstrap components (e.g., navbar, cards) adjust seamlessly to different screen sizes.

4. Content Requirements:

Your website must:

- Use **Bootstrap's grid system** for layout.
- Incorporate **Bootstrap components** like the navbar, cards, and buttons.
- Be fully responsive across devices (mobile, tablet, desktop).

- Include visually appealing elements like images, icons, and buttons.

5. Submission Guidelines:

- Deploy the site to Netlify and submit the live URL.
